Radiation Detection Company dosimetry services are provided on a subscription basis. Active and current subscribers will receive a shipment of personalized dosimeters each wear period. Subscribing to our service constitutes agreement with the terms of service.

Prepaid Accounts: All international accounts must be prepaid. Prepayment includes estimated subscription service, estimated shipping costs and unreturned dosimeter deposit. The terms of service for prepaid accounts require that a positive cash balance be maintained to insure continuous dosimetry service.

A funding replenishment invoice is generated when both of two conditions exist:

- (1) there are 90 days or fewer prior to the next scheduled badge wear date; and
- (2) the estimated pricing for those badges exceed the current cash balance.

Funding replenishment invoices estimate a 12 month period of service based upon the subscriber's *current* service type, quantity, frequency and the RDC price list in effect at the time of the renewal estimate. Billing is based upon *actual* customer usage and the RDC price list in effect at the time of shipment. Ancillary charges (such as rush processing, expedited shipments or unreturned dosimeter fees) are in addition to annual estimates and will be deducted from prepaid accounts. Credit card payments or wire transfers are required.

Shipments are not made to prepaid accounts with zero or negative cash balances.

Subscription Cancellation: Cancellation requires 45 days written notice. Our services are subscription based. If you cancel your subscription, your on-line services will remain active for the remainder of the time period for which you paid. RDC will not refund the remaining portion of your subscription, except in demonstrated cases of credit card fraud, property damage resulting in the closure of business, or like situation outside of your control. Badges may be prepared up to 30 days prior to wear date. Badges prepared prior to RDC receiving written cancellation notice will be billed. Cancellation notices should be emailed to:

customerservice@radetco.com or faxed to:
Radiation Detection Company

Attn: Customer Care

Pricing: RDC standard pricing is tiered base pricing determined by the number of active badges for each customer. The following pricing terms and conditions apply:

- unless RDC agrees in writing, the current published price list will determine pricing
- prices are subject to change
- badges and services are priced at time of production/delivery
- a courier account number is required for shipments to be paid by customer
- any customs charges accrued are the responsibility of the customer

Unreturned Badges: All dosimeters contain valuable components and remain the property of RDC and must be returned at the conclusion of the wear period. Unreturned or lost badges are subject to the current, published replacement prices 60 days after the end of the wear period. Badges returned after 60 days will receive a partial credit.

Purchase Orders: RDC accepts purchase orders as a customer payment tracking reference only. Use of a purchase order is not a contract and does not set pricing, terms, or obligate RDC to customer terms and conditions. For customers requiring a purchase order, the subscriber must provide a valid purchase order for the renewal period. Purchase Orders should be faxed or emailed to:
